

# Simplify eligibility management for both administrators and members

- Eliminate manual, paper transactions with electronic, online administration
- Save time and money
- Improve accuracy and reduce errors

## Hx eligibility management - powered by CEEM

Provides comprehensive eligibility management with seamless data integration for an easier, unified way to manage benefits and make benefit elections. Coteva Enrollment & Eligibility Manager (CEEM) gives you around the clock access to all your customer and participant information, accessible through the Healthx platform.

### Features:

- **Administrators:**  
View all groups, manage, reconcile and audit eligibility, process electronic signatures, manage import and export data wizard, run 30+ canned reports with the ability to create ad-hoc reports.
- **Employer/Human Resources:**  
View all employees and their transaction history, view benefit documents, run reports, manage eligibility and demographic data with access to the Human Resources Support Center.
- **Brokers:**  
View all benefits, groups, member/employee transaction history, import and export data via the wizard with access to the Human Resources Support Center.
- **Employees/Members:**  
Enroll in benefits, process life event changes, demographic changes, manage dependent data and view enrollment application status and benefit documents.

### Optional Features:

- **Consolidated Billing:**  
Invoicing, accounts payable, accounts receivable, detail remittance reporting, audit reporting and reconciliation.

## Consumers want convenience, simplicity, choice, and self-service

The Healthx platform provides a way to connect all your solutions into one configured, individualized, branded experience.

- Increase speed to market
- Eliminate the need for costly resources
- Pre-negotiated rates
